SUMMARY

Frontend Developer with over 3 years of experience in Angular, pursuing a full-time role to apply expertise in SCSS, HTML, TypeScript, and responsive web design.. Proven ability to deliver high-quality user interfaces and optimize performance across various devices. Had experience working collaboratively with a team of over 50 teammates, contributing to successful project completions and fostering a productive team environment.

EDUCATION

- · Bachelor of Technology, Electrical and Electronics Engineering (Honours), Gandhi Institute For Technology, July 2016 December 2020
- · Class 12th, Science with Biotechnology, Kendriya Vidyalaya IIT Kharagpur, April 2014 March 2015

TECHNICAL SKILLS

- · Frontend Technologies: CSS, SCSS, HTML
- · Programming Languages: TypeScript, JavaScript
- · Testing Frameworks: Jasmine, Karma
- · Web Frameworks: AngularJS, Bootstrap
- · Development Tools: Git, SonarQube, Lighthouse
- · Methodologies: Agile, Responsive Web Design, UI/UX Design, Cross-Browser Compatibility, Performance Optimization

PROFESSIONAL EXPERIENCE

Senior System Engineer, Infosys, Bhubaneswar, Odisha (June 2021 - Present)

- Enhanced code performance, achieving a 20% increase in system efficiency.
- Championed best coding practices, enhancing code quality and maintainability by 30%.
- Engineered and scaled complex applications using Agile methodologies, achieving 95% on-time project delivery and reducing software bugs by 40% through thorough testing and iteration.
- · Partnered with project managers, developers, and QA teams to troubleshoot technical issues and enhance user experience.
- Authored and maintained comprehensive development documentation, facilitating knowledge sharing and reducing onboarding time for new team members by 25%.
- Pioneered the integration of CI/CD pipelines into existing workflows, increasing deployment speed and improving feature release frequency from biweekly to weekly without compromising code quality or stability.

PROJECTS

Damilar Mercedes Benz

- · Gained practical experience during project go-live phases, addressing bugs and implementing new developments.
- · Oversaw multiple projects during the same time frame.
- · Directed HTML, JavaScript, TypeScript, and SCSS projects, improving code efficiency by 20%.
- · Rectified 95% of Sonarqube issues, improving coding standards and reducing bug-related downtime by 30%.
- \cdot Coordinated deployment of package file changes, cutting errors by 15% and boosting operational efficiency.
- · Crafted a responsive web app increasing user engagement by 25% and customer satisfaction.
- · Leveraged Lighthouse tools to resolve 80% of performance bottlenecks, achieving a 40% faster website.
- · Streamlined cross-functional collaboration, reducing deployment time by 20%.

PERSONAL PROJECTS

- · Budget Calculator App: Developed an application to track monthly expenses, enabling effective management of finances using the Angular framework.
- · Personal Portfolio: Created a personal portfolio website to display projects and skills, utilizing the Angular framework for an effective user interface.
- · Weather App: Created a weather application that provides real-time weather updates for any location worldwide, utilizing Angular for a responsive user interface.

CERTIFICATIONS

- · HTML, SCSS Certification
- · Jasmine and Karma Certification
- · Angular Developer Certification
